Bill Brown 285-4766 NOW!

AMC VOLUNTEER TRAIL AND SHELTER PROJECTS

The Appalachian Mountain Club maintains over 1,000 miles of trail (including 350 miles of the Appalachian Trail), numerous backcountry shelters and miles of ski touring trails in the Northeast. Volunteers do much of the work and more volunteers (individuals, families and groups) are wanted. Opportunities exist through our Chapters and Camps who, through individual assignments and regularly scheduled weekend outings, do much trail and shelter work from the Delaware Valley area on up into Maine. A new summer volunteer crew, operating on weekly room and board basis, to do various trail projects with a leader on the Mt. Greylock Reservation in western Massachusetts, will be based at Bascom Lodge. In the White Mountains of New Hampshire, four summer programs exist. The Volunteer Crew allows individuals and groups to work one or more weeks on a room and board basis. Approximately 25-30 volunteers work each week doing day and overnight trips to do a variety of work with a skilled leader. Weekend projects are also scheduled which allow people to sign up for a specific one- or two-day task (e.g., cairning, bridge building, etc.) also with a leader. Room and board provided. The Adopt-A-Trail and Adopt-A-Shelter programs let volunteers take on a particular trail or shelter and do the work on their own time at their own pace. Training, tools, and some accommodations available. Lastly, two special trail projects have been arranged in the scenic West, one in the beautiful Teton National Park (July 24-August 5) and the other in the Wind River Range of the Bridger Teton National Forest (August 14-26) both in Wyoming. Food, tools, some equipment and experienced leaders provided.
